Outcomes of Nevada's Native Population Employment, Unemployment and Workforce

September 2019

Nevada Indian Commission:

Prepared by the Research and Analysis Bureau

David Schmidt, Chief Economist
Dennis Perez, Deputy Director
Dr. Tiffany Tyler-Carmer, Director

Research & Analysis Bureau
There are some significant margins of error involved.

According to the U.S. Census Bureau, the American Community Survey, even then,

in order to produce this report, we have to use a 5-year average unemployment rate by

for 3 consecutive years.

1. The unemployment rate for a group is double that of the area as a whole.

2. The unemployment rate for a group is four percentage points higher than the

area as a whole.

3. The unemployment rate for a group has been higher than the area as a whole.

higher-than-average unemployment according to three different indicators (GWDB):

higher-than-average unemployment according to Detr朋f, and to direct workforce services toward those groups with

demographic groups (DTR), and to direct workforce services toward those groups with

Workforce Development Board to track unemployment by county for various

Last session, AB 354 amended the responsibilities of DTR and the Governor’s

Tracking Employment Activity by Demographic Profile

Source: U.S. Census Bureau, Longitudinal Employment-Household Dynamics

Due to the lag times for processing, complete data is only currently available through 3rd quarter 2018 (but compared to a 2013-2017 average, this is much more timely). This data is available at a statewide, county, MSA, or workforce board level, though tighter geographic boundaries will mean more data gets suppressed if it does not meet Census Bureau publication standards.

Moving from unemployment to employment, we are working on ways to better present and analyze the LEHD data set from the U.S. Census Bureau. This combines wage data from the states with Census demographic data to get a very detailed picture of employment activity for different demographic groups, which can be further broken out by industry.
